

## Proctor Silex® Petite Waffle Maker

**Simply Better** – Make your morning waffle in two minutes. Whip up fresh, hot waffles when expecting house guests for a long weekend or prepare a batch ahead, freeze and then heat in the toaster for the busy weekdays.

**Customization For Everyone** – Personalize waffles with ingredients such as chocolate chips, blueberries, or even pumpkin spice. Make low carb chaffles with cheese and eggs or get creative with some thawed tots for tater tot waffles or use freshly grated potatoes for hash browns.

**Easy To Use and Clean** – The green ready indicator light will illuminate when the waffle maker is hot enough to add batter. Your food is ready when the steaming is about to stop. Once your waffle maker has completely cooled, simply wipe the grids down for easy clean up.

**Less Space** – No matter where its home is in the kitchen, it has a minimal footprint on the countertop and is also small enough to store in a kitchen drawer or cabinet.

### DETAILS

Proctor Silex® Petite Waffle Maker

Model: 26100

MSRP: \$15.99

Availability: June 2022
